

OPEN HOUSE

Welcome to the grand opening of Small Talk's 3400 Pine Tree location, April 28th, 2016

Small Talk started with the dream that we could make a difference in the life of just one child by providing a safe place for healing. A simple concept, but a tremendous responsibility. The Executive Director, Alex Brace, and the Small Talk team are committed to guiding children through the worst possible trauma and giving them a chance to heal. We have stood together and watched the dream of Small Talk become a reality. Just five years later, we have grown our dream into a state of the art center leading the community in addressing child abuse and empowering children to have the courage to heal.

We ask you to raise your hand today and join us in our commitment to these brave children.

Thank You to our sponsors

These community partners made the transformation of this space possible
